

CK3500-4 Centre keel roller boat trailer

£6930.00

British made De Graaff Trailers CK3500-2 ADJ, 3500kg, double axle, 4 wheel braked boat trailer. The centre keel roller boat trailer range has been designed to give the boat the maximum amount of support, but still allowing easy launch and recovery. The totally welded hot dipped galvanised chassis with a ridged A-frame and adjustable winch post. The centre keel rollers support the boats keel, and the side rollers are adjustable sideways and up and down so can easily be set to suit most hull designs. All centre keel boat trailers can be fitted with side support carpeted side bunks instead of the rollers

Suitable for:

Cruisers, Ribs, Speedboats, Sailing boats and Sports boats.

Length capacity: 20ft (6.8m) to 28ft (8.5m)
